PROJECTS

Water and Energy Savings

Custom Enterprise Resource Planning Platform

A full-stack ERP system for project management, budgeting, scheduling, expenses, tasks, document handling and business reporting. It includes user authentication, administrative functionality, automated testing and a scalable database-backed architecture.

Tech stack: Next.js | React | JavaScript | Node.js | MongoDB | Mongoose | Material UI | Tailwind CSS | Zustand | TanStack React Query | JWT | Zod | Vitest

Starlight Capital

Renewable Energy Investment Website

Designed and developed a bilingual corporate website for a renewable energy investment firm. The platform presents the company's investment strategy, team and portfolio of solar PV and battery energy storage projects through responsive pages, interactive project maps and multilingual content.

Website www.starlightcapital.eu

Tech stack: React | Vite | JavaScript | Tailwind CSS | React Router | i18next | Framer Motion | Google Maps | Google Analytics | SEO prerendering

Hybrid Energy Rock

PVT Renewable Energy Website

Built a bilingual website for Hybrid Energy Rock that presents its photovoltaic-thermal panel technology, products, benefits and energy solutions. The platform includes product information, blog content, contact forms and Firebase-backed customer communication and administration features.

Website www.pvt.bg

Tech stack: React | Vite | JavaScript | Tailwind CSS | Firebase | React Router | i18next | Framer Motion | React Hook Form | EmailJS | Recharts
